

Selecting just the right coffee beans takes great care. Your name is on the final package and you take great pride in knowing you've chosen the finest specialty coffee. That's why it's so important to complete the process by getting it to you in pristine condition.

So many variables in shipping and warehousing can take superb coffee and change its profile. Light, temperature, humidity and handling greatly affect the end result. Just the time it takes to transport from point A to point B can change the flavor of a specialty coffee. We would like to introduce Paris Brothers' state-of-the-art green coffee warehouse and distribution facility in Kansas City, Missouri.

closer to the
heartland of
America***

Our new central location

This new central location, and hours of operation, give you added flexibility and saves you time and money by being in the heart of the major north-south and east-west transportation corridors. There are excellent highway, rail and air cargo access in all directions. Now orders can be shipped faster and with less freight costs because your specialty coffee is nearby.

Complete climate control from dock to warehouse

Paris Brothers warehouse and docks are 100% climate controlled and offer perfect conditions for storing coffee until it is shipped to you. Humidity and temperature are regulated year round. Security and cleanliness are monitored 24 hours a day. It is truly an ideal environment for storing specialty coffee.

Freight services

The warehouse facility offers rail and trucking to expedite your order via Ground Freight Expeditors, an on-site freight forwarding company that is part of the Paris Brothers family of companies. Next day delivery is easy and affordable. And Paris Brothers stays open late to process your orders and get them moving the same day.

Dedicated customer service

Even with all of the pieces in place, it still wouldn't work without exceptional customer service. Paris Brothers takes extra care with your order from start to finish. Every shipment is tracked until it arrives at its final destination.

Being closer has immediate benefits to you!

- Expedited freight services at lower costs
- Friendly customer service & technical support
- Clean, safe and controlled storage facilities
- Expanded hours of operation from 6am to 6pm Central Time

All of this adds up to a better coffee, lower freight bills and better service. Call us today and let one of our friendly customer service representatives give you the details.
